### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant has amended claims to incorporate allowable feature as indicated in the previous Office Action. Specifically, none of the prior art teaches or fairly suggests, among other things, the limitation "*using the output of the first flip-flop and the output of the second flip-flop to generate a combined output that alternates between a logic low level and a logic high level; and using the combined output to sustain the oscillation of the oscillating signal*" as required by claim 17; "*a third element configured to receive the first data output and the second data output as inputs and provide the oscillating signal*" as required by claim 20; and "*using the first data output and the second data output to generate an alternating output that sustains the oscillation of the oscillating signal*" as required by claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
